

Travel vaccination policy

Please be advised the following vaccines are considered travel vaccinations which are typically **not covered by insurance**. Therefore, it is the patient's responsibility to pay for them out of pocket at the time of the appointment.

Travel consultations are separate from typical office visits, therefore any questions outside of the travel consultation will require a separate office visit.

Your health risks while traveling is important to us, therefore →

- Please provide your complete travel itinerary during the visit (including layover destinations)
- If you plan on visiting rural areas or staying with friends and/or family.
- Lastly, **most insurance companies will not cover** travel consultations or travel vaccinations.

Additional fees include the consultation fee plus administration of the vaccine.
